Good afternoon to the members of the MMD Subcommittee,

Thank you for taking my statement for input from the public. My name is Jeanette and I am a resident of the city of Albany. I would strongly encourage 7 MMDs as your final submission to the Legislature. I believe It is important to provide the Minority community an opportunity which it has had to fight for so many times in court. So far, I have only seen two maps that have 7 MMDs. I would like this sub committee to use either of them or to create a final map that includes 7 MMD's. Thanks for taking into account my statement.
