Kindly consider this to be my registration to be heard at your forthcoming hearing on the matter pertaining to the proposed Albany County redistricting.

Please know that I will be submitting written comments in opposition to the current proposal.

I have been a resident of Roost Estates for twenty-seven years and consider it an affront that you have chosen to engage in this plan without informing community based constituents. In other words you have chosen to "do it to the people and not with the people" contrary to your collective desire to demonstrate a transparent government process.
