Background

The Albany County Comptroller’s Office performed an audit of Occupancy Tax records related to tax collected by hotels and motels within the County. New York State and Local Laws¹ grant Albany County the authority² to impose and collect taxes on occupancy of hotel and motel rooms in Albany County and provides for the structure for the distribution of the funds collected. Occupancy tax collected equals six percent (6%) of the per diem rental rate charged to occupants for each hotel or motel room. The whole of the monies collected are distributed as follows:

- Albany Convention Center Authority Fund – 50%
- Times Union Center (Civic Center) Debt Service Fund. – 33%
- Albany County Convention and Visitors Bureau – 17%
 - Up to ten percent of this amount is retained by Albany County to offset the administrative expenses related to the occupancy tax.

The table below details occupancy tax collections for the first three quarters of 2021.

Collections Q1 & Q2 2022				
	2021	2022	Variance	
1st Quarter Collections	\$ 656,521	\$ 1,309,232	\$ 652,711	99%
Late Payments	\$ 664	\$ 5,441	\$ 4,776	
2nd Quarter Collections	\$ 1,166,290	\$ 1,974,563	\$ 808,273	50%
Late Payments	\$ 456	\$ 4,131	\$ 3,675	
Total	\$ 1,823,932	\$ 3,293,366	\$ 1,469,434	81%

Hotel and motel operators are required to keep current and accurate records of exempt and non-exempt revenue. Additionally, quarterly returns with payment in full must be filed in a timely manner through the Albany County Department of Finance. A penalty is imposed for the late filing of a quarterly return in the amount of five percent of the total amount owed for the first month past due. An additional one percent of the original amount due at the start of each additional month past due. During the second month past due, a notice will be delivered stating that the operator must file the past due return (with payment) within 30 days to avoid the issuance of a warrant and lien against the property. Additional penalties are imposed for

² Authority is granted for a term of two years and must be renewed by resolution through the Albany County Legislature.

misclassification of exempt revenue in the amount of five percent of the amount owed as a result of the misclassification and one percent per month charged back to the date the original return and payment was due. Specific and flat rate fines are imposed in the amount of one thousand dollars for the following issues as observed during the audit process:

- Non-compliance with audit in terms of scheduling and participation with auditors
- Failure to have tax certificate displayed in the appropriate manner as required by law
- Operating an unregistered hotel or motel

Objectives

- Confirm that the hotel or motel is registered and is in compliance with tax certificate display requirements;
- Determine whether operator has accurately classified exempt and non-exempt revenue;
- Ensure that records provided related to exempt revenue are substantiated with appropriate documentation; and
- Determine amount of late fees, penalties and fines to be assessed, if any.

Scope

The scope of this audit includes all hotels and motels located and operating in Albany County that have 25 or more rooms. The Occupancy Tax Audit is performed twice annually and in total generally reviews between 30 and 40 of the existing locations. Locations are selected for audit on a two year rotating basis. Any location observed to be in noncompliance is reviewed as part of subsequent audits continuously until compliance is established and verified, as such the total number of locations audited varies from year to year.

Audit work was substantially completed on July 1, 2022.

Approach

To accomplish these objectives the DAC performed the following:

- Schedule site visit with hotel or motel operators;
- Perform reconciliation of physical records provided against quarterly returns filed with the Albany County Department of Finance;
- Review sample of documentation provided to support exempt revenue;
- Issue an invoice for any and all late fees, penalties and fines imposed.

Observations

One observation was noted during this audit; a single hotel was billed \$2,366 in underpaid occupancy tax and related penalties and as a result of errors.

Conclusion

The DAC performed the hotel occupancy tax audit at a total of 21 locations. The auditors reviewed records for taxable room sales of \$15,282,735 which generated \$916,964 in Occupancy Tax.

One hotel that was scheduled to be reviewed was closed due to COVID and as a result was not available for the previous audit was added to the list for the Spring 2022, which addressed the open item from the Occupancy Tax Audit report issued for Fall 2021.

Additionally, it was noted in the previous report that the Comptroller's Office observed, outside the scope of this audit, one hotel is currently in arrears of occupancy tax payments for the past eight quarters (two years). This hotel has been permanently shut down and will potentially be listed for sale in the near future. Warrants that would impede the sale contingent on the satisfaction of the owner's tax liability have not been filed, a procedure which is normally performed by Albany County Department of Law at the request of the Finance Department, a subdivision of the Department of Management and Budget (DMB). This matter remains under investigation and is being handled by the Albany County Finance Department. This item is still outstanding.

I would like to thank all participating hotels for their cooperation with our audit team in performing this review.
