

I have an issue with the line for the 11th legislative district. The line on the Eastern end of the district in what is currently the 15th ward 7th election district doesn't follow the City line which is the Krumkill creek. This results in some homes on Tryon Court in the City of Albany being included in the 32nd Legislative district. This will end up creating a very small election district in the 15th ward with most likely less than 10 voters which will be in the 32nd Legislative district . Therefore I request you adjust this line.

Paul M.
