

LOCAL LAW NO. "F" FOR 2019

A LOCAL LAW TO REQUIRE ALBANY COUNTY RESTAURANTS AND EATING ESTABLISHMENTS TO PROVIDE STRAWS AND PLASTIC CUTLERY ONLY UPON REQUEST

Introduced: 5/13/19

By: Mss. Cunningham, Lekakis, McLean Lane, Plotsky, Messrs. Reinhardt, Feeney, A. Joyce, Miller, Fein, Peter and Simpson:

Section 1. Findings and Purpose

The Albany County Legislature finds and determines that:

Littered plastic products, including straws, stirrers and plastic cutlery have caused and continue to cause significant environmental harm and have burdened local governments with significant environmental cleanup costs. Plastics synthesized from petroleum and natural gas do not biodegrade. Even with the emergence of bioplastics, which are derived from renewable biomass sources, such as plants and microorganisms, there is no certified type of bioplastic that biodegrades in a marine environment.

The Albany County Legislature prioritizes the protection of the environment and through public policymaking and adoption of local laws, intends to take initiative to minimize the unnecessary use of plastic in our environment. A reduction in the use of plastic straws, stirrers, and cutlery will further serve Albany County's goal of reducing plastic litter.

Section 2. Definitions

For the purposes of this ordinance, the following shall have the following meanings:

"Beverage Provider" means any business, organization, entity, group, or individual located in the [name of jurisdiction] that offers liquid, slurry, frozen, semi-frozen, or other forms of beverages to the public for consumption.

"Plastic Cutlery" means any utensil, such as a fork, spoon, spork, or knife, made predominantly of plastic derived from either petroleum or a biologically based polymer intended for only one-time use. "Plastic cutlery" includes compostable and biodegradable petroleum or biologically based polymer forms of cutlery, but does not include forms of cutlery that are made from non-plastic materials, such as wood, bamboo, etc.

"Plastic Beverage Straw" means a tube made predominantly of plastic derived from either petroleum or a biologically based polymer for transferring a beverage from its container to the mouth of the drinker. "Plastic Beverage Straw" includes compostable and biodegradable petroleum or biologically

based polymer straws, but does not include straws that are made from non-plastic materials, such as paper, grain stalks, bamboo, etc.

“Food service ware” means all containers, bowls, plates, trays, cups, lids, napkins, and other like items that are designed for one-time use for prepared foods, including, without limitation, service ware for takeout foods and/or leftovers from partially consumed meals prepared by food vendors. The term “food service ware” does not include items composed of aluminum.

Section 3. Plastic Straws and Cutlery Upon Request

- (a) All Albany County restaurants, including fast food restaurants drive-through windows of restaurants, beverage providers, or vendors shall only offer plastic cutlery and straws, upon request. Nothing in this local law shall preclude a drive-through restaurant employee or employee of any restaurant from asking its customers if they need utensils or straws.
- (b) Nothing in this section precludes restaurants, including fast food restaurants, beverage providers, vendors, or persons from using or making non-plastic alternatives, such as those made from paper, grain stalks, sugar cane, or bamboo, available to beverage consumers.
- (c) Nothing in this local law requires stores that offer a “self-service” station that includes straws, stirrers and plastic cutlery to additionally ask consumers if they request a straw or plastic item. “Self-service” areas, by definition offer consumers the ability to make their own choice about whether to use plastic items.
