

EPA CERTIFIED RENOVATION FIRMS

Below is a partial list of U.S. Environmental Protection Agency (EPA) certified renovator firms located in the greater Capital Region area. These businesses and their contact information were taken from the EPA's website. The EPA publishes this list of certified renovation firms that meet their standards to perform renovation activities involving lead-based paint. The list is an information resource only and is provided as a convenience for those trying to find an EPA certified firm. EPA and Cornell Cooperative Extension Albany County do not endorse any of the firms included on this list nor do they provide any warranty about their performance. Consumers are advised to request bids and conduct reference checks before engaging any firm/contractor. For additional EPA certified renovators, please go to http://cfpub.epa.gov/flpp/searchrrp_firm.htm Select **renovator** as the type of company, then enter either a complete address, or a zip code, or a city and state.
