

Albany County Legislature
Hon. Andrew Joyce, *Chairman*

RESIDENTIAL CLEAN ENERGY TAX CREDIT

SOLAR, BATTERIES, AND GEOTHERMAL

General Info:

- Credit equals 30% of the cost of new, qualified clean energy equipment
- Must be installed anytime from 2022 through 2033
- Annual credit is available every year you install eligible equipment
- The credit amount you receive can't exceed the amount you owe in taxes

Who & What Qualifies:

- Improvements to your main home, whether you own or rent
 - Landlords and property owners not living in the home do **not** qualify
- All property installed must be **new**
- Credits can cover labor costs

Qualifying Clean Energy Equipment:

- Solar water heaters
 - Certified by the SRCC or a comparable entity endorsed by NYS
- Geothermal heat pumps
 - Meet Energy Star requirements at the time of purchase
- Battery storage technology
 - A capacity of at least 3 kWh
