

REDEFINE YOUR HEALTH TRANSFORM YOUR LIFE

Diabetes Prevention Program

Type 2 Diabetes Is Preventable! About one in three American adults – 86 million people have prediabetes. Only 11% are aware of it.

About Our Program

The National Diabetes Prevention Program helps those at high risk of developing type 2 diabetes adopt and maintain healthy lifestyles by eating healthier, increasing physical activity and losing a modest amount of weight in order to reduce their chances of developing the disease. You are at increased risk for having prediabetes and are at high risk for type 2 diabetes. However, only your doctor can tell for sure if you have type 2 diabetes or prediabetes, a condition in which blood sugar levels are higher than normal but not high enough yet to be diagnosed as type 2 diabetes.

Register today @ ahealthyfuturedpg.com or scan the OR code

- Start date November 6, 2024
- Wednesdays 11AM-12pm for 16 weekly sessions over 6 months, followed by 6 monthly maintenance sessions.
- No Cost for Qualifying Albany County Residents
- Classes will be held @ Ida Yarbrough Homes

 260 N Pearl St., Albany, NY 12207 (Everly Cromwell Community Center)
- For more information, or to register contact: katebailey@ahealthyfuturedpg.com

Kate Bailey, NBC-HWC, DPP Lifestyle Coach A Healthy Future Diabetes Prevention Group

Seeing the growing number of adults facing type 2 diabetes drives my passion to help others become the best version of themselves by taking care of their health. While guiding each group through the diabetes prevention program, I see participants put the program tools to work to develop healthier lifestyle habits and lower their risk of type 2 diabetes.

TAKE THE RISK TEST

Prediabetes Risk Test

1. How old are you?	Write your score in the boxes below		Weight (lbs.)		
Younger than 40 years (0 points)	the boxes below	4'10"	119-142	143-190	191+
40–49 years (1 point) 50–59 years (2 points)		4'11"	124-147	148-197	198+
60 years or older (3 points)		5'0"	128-152	153-203	204+
2 4 4 2 1 2 1 2 1 2 1 2 1 2 1 2 1 2 1 2		5'1"	132-157	158-210	211+
2. Are you a man or a woman?		5'2"	136-163	164-217	218+
Man (1 point) Woman (0 points)		5'3"	141-168	169-224	225+
3. If you are a woman, have you ever been		5'4"	145-173	174-231	232+
diagnosed with gestational diabetes?		5'5"	150-179	180-239	240+
Yes (1 point) No (0 points)		5'6"	155-185	186-246	247+
		5'7"	159-190	191-254	255+
4. Do you have a mother, father, sister, or brother with diabetes?		5'8"	164-196	197-261	262+
sister, or brother with diabetes:		5'9"	169-202	203-269	270+
Yes (1 point) No (0 points)		5'10"	174-208	209-277	278+
5. Have you ever been diagnosed		5'11"	179-214	215-285	286+
with high blood pressure?		6'0"	184-220	221-293	294+
Yes (1 point) No (0 points)		6'1"	189-226	227-301	302+
		6'2"	194-232	233-310	311+
6. Are you physically active?		6'3"	200-239	240-318	319+
Yes (0 points) No (1 point)		6'4"	205-245	246-327	328+
			1 Point	2 Points	3 Points
7. What is your weight category?					
(See chart at right)	<u> </u>		You weigh less than the 1 Point column (0 points)		
Adapted from Bang et al., Ann Intern Med 151:775-783, 2009. Original algorithm was validated without gestational diabetes as part of the model.					

If you scored 5 or higher

You are at increased risk for having prediabetes and are at high risk for type 2 diabetes. However, only your doctor can tell for sure if you have type 2 diabetes or prediabetes, a condition in which blood sugar levels are higher than normal but not high enough yet to be diagnosed

as type 2 diabetes. **Talk to your doctor to see if additional testing is needed.**If you are African American, Hispanic/Latino American, American Indian/Alaska Native, Asian American, or Pacific Islander, you are at higher risk for prediabetes and type 2 diabetes. Also, if you are Asian American, you are at increased risk for type 2 diabetes at a lower weight (about 15 pounds lower than weights in the 1 Point column). Talk to your doctor to see if you should have your blood sugar tested.

You can reduce your risk for type 2 diabetes

Find out how you can reverse prediabetes and prevent or delay type 2 diabetes through a CDC-recognized lifestyle change program at https://www.cdc.gov/diabetes/prevention/lifestyle-program.

Risk Test provided by the American Diabetes Association and the Centers for Disease Control and Prevention.
